Contents

Preface for Instructors
Introduction: Thinking Critically
Cultural Myths

A list of the book content arranged by
chapter, section, subsection, etc...

1

Harmony at Home:

The Myth of the Model Family

17

A Family Tree; Freedom from Want; Freedom from Fear

NORMAN ROCKWELL

The myth of the model family as visualized by America's most popular
illustrator.

21

Myths of Family Past

JOHN R. GILLIS

25

"It comes as a considerable surprise to most people that our cherished
family traditions are of relatively recent origins, few older than the
mid-nineteenth century."

Looking for Work

GARY SOTO

42

"For weeks I had drunk Kool-Aid and watched morning reruns of *Fa-
ther Knows Best*, whose family was so uncomplicated in its routine that
I very much wanted to imitate it. The first step was to get my brother
and sister to wear shoes at dinner."

Growing Pains: Beyond "One Big Happy Family"

ANNDEE HOCHMAN

47

"Early in the summer of 1987, I flew back east to tell my parents I was
in love with a woman...."

How to evaluate books?

Books shall pass the **CRAAP** test:

C – Currency: Is the book's publication date recent and suitable for your topic?

R – Relevance: Does it directly address your research question and academic level?

A – Authority: Is the author/publisher credible and qualified?

A – Accuracy: Is the information supported by reliable evidence and free of errors?

P – Purpose: Is the content objective, with a clear educational or informative aim?

Library Classification

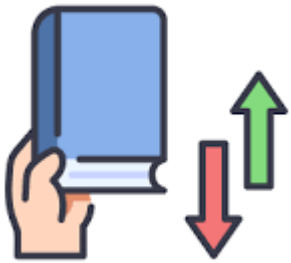

Books in the stacks are shelved according to their **subjects** following the **Dewey Decimal Classification System**.

Dewey Decimal Classification

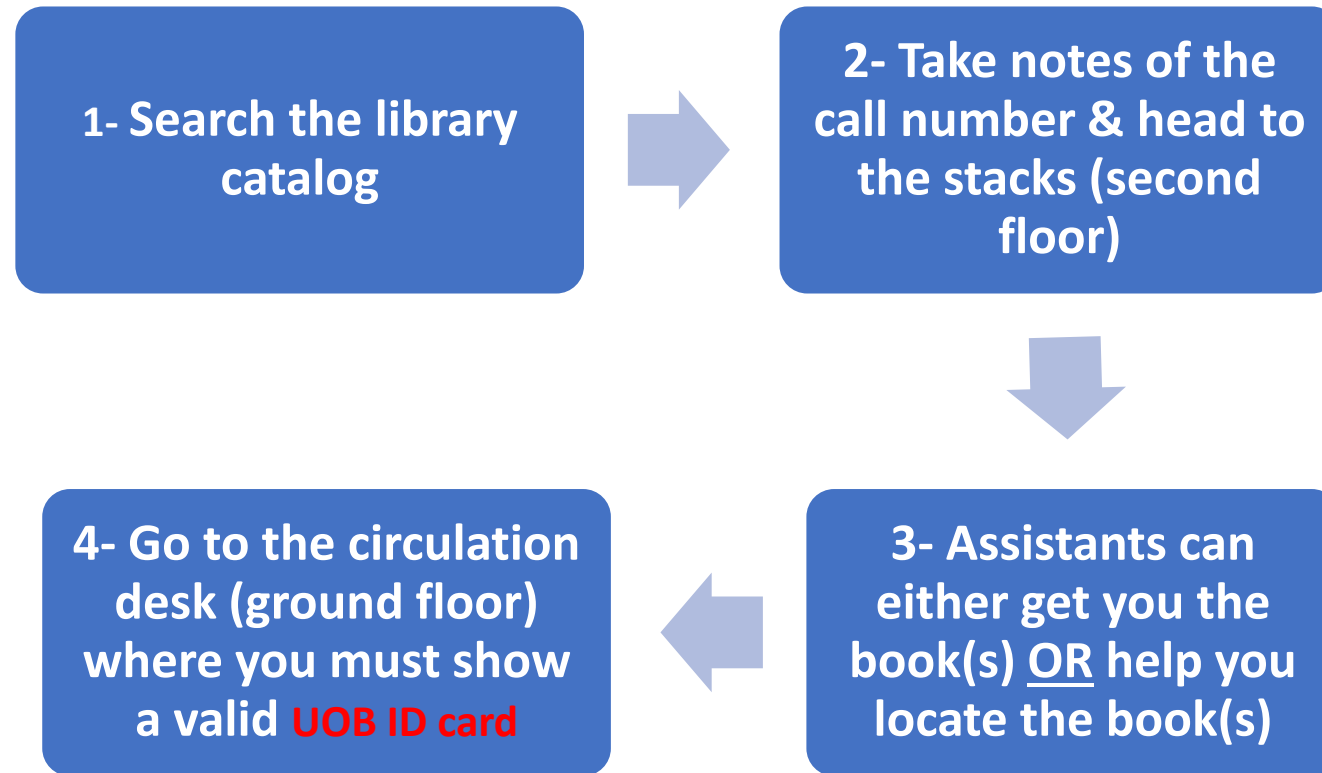

A **call number** is a unique code printed on a book's spine that shows its **location on the library shelf**. It's like the book's **address**.

Borrowing Procedure:

Undergraduate students can borrow up to 7 items/ for a loan period of **14 days**.

Graduate students can borrow up to 15 items / for a loan period of **30 days**.

While in the stacks, do not reshelv books.

eBooks

- An **eBook** (electronic book) is a **digital publication of text and sometimes images** designed to be read on electronic devices.
- eBooks are widely used in **education, research, and personal reading**, and are increasingly integrated with **libraries and open-access initiatives**.
- **Amazon Kindle**, launched in **2007**, is an e-reader developed by Amazon that lets users **read, download, and store digital books (eBooks)**. It uses **e-ink technology** for a paper-like screen.

Some UOB Library Databases Offering eBooks:

- Ebsco eBook
- ProQuest eBook Central
- Springer Nature eBooks
- Jstore eBooks
- Persee
- Google scholar
- DOAB (open access)
- Etc...

Print Books VS. eBooks

Format	Advantages	Disadvantages
Print Books	• Tangible and easy to flip through pages • No need for battery or device • Collectible and aesthetically pleasing	• Bulky and heavy to carry • Can wear out or get damaged • Usually more expensive
eBooks	• Highly portable (thousands on one device) • Adjustable font size and search function • Often cheaper and instantly accessible	• Requires electronic device and battery • Less tactile reading experience • Eye strain from prolonged screen use (except e-ink)

Note: Book reviews are short evaluations written by readers or critics to share opinions about a book's content and quality.

ISBN

- **ISBN (International Standard Book Number)** is a unique number assigned to each published book to identify it easily and distinguish it from other books.
- Each format of a book (print, eBook, audiobook, etc.) usually has its **own unique ISBN** to help identify and manage them separately in libraries and bookstores.
- Example:
- **Print book ISBN:** 9781032662015
- **eBook ISBN:** 9781032686899

Both refer to "*Civil engineering innovations for sustainable communities with Net Zero targets*", edited by Sreevalsa Kolathayar, N Vinod Chandra Menon and Sreekeshava K S., but one is for the printed edition and the other for the eBook version.

Search Tools @UOB Library:

SearchAll: searches UOB Libraries **electronic** and **print** collections mainly for **articles, chapters**, books, ebooks, etc.

Library Catalog: mainly used to find books, ebooks, theses, audiovisuals, manuscripts, etc. available at the library.

A-Z Database: an alphabetical list of databases with a description of the content and scope.

Journal/eBook Finder: to find and browse specific books or journals by title.

Steps to Search for books in the UOB Library Catalog:

- Go to the **library website**.
- Under **Resources**, choose **Library Catalog**.
- Enter the **keywords** or the **title of the book**.
- You can click on **Advanced Search** to refine by **author, ISBN, call number, year, or language...**
- View the **results page** to access the available items.
